The cost of the moulds is 48 Euro/Kg. The weight is approximate, it can vary a little plus a 20 % suggested donation to help defray labor and equipment costs. This 20% IS NOT reflected in the prices in the list above.

This is the list of the tsa tsa's that we currently have and not the list of all the tsa tsa's that exist. We would be very happy to add to it with any well shaped tsa tsa's of which you would like to have a mold made.

* number of tsa tsa per mould

** details means clarity of the detail of the tsa tsa 1 = very good; 2 = medium; 3 = low
